

Euroclear Bank services over 14 trillion EUR worth of securities, issued by a very wide range of issuers, held in over 40 markets on behalf of over 2,000 clients, among which the world's leading financial institutions.

As a result, Euroclear Bank sits on huge amounts of data. Asset Servicing Operations – the division you would join - is seeking to leverage this to spot trends, identify patterns,... to deliver insights on how to offer existing and new services more effectively and efficiently.

You will bring a knack for data and good business acumen to the role.

The Division:

Euroclear Bank Asset Servicing Operations, and its 500 colleagues based in Belgium, Poland and Hong Kong, are at the heart of what is happening in the capital markets.

Our New issues teams – accepting over 1 million new securities per year at Euroclear Bank - act as a 'gateway to Euroclear', an access point through which issuers can reach their investors. It is also our gateway to the world, where we first feel the impact of important economic and political changes.

When the issuer pays interests, dividends or reimburses the loan, our Income teams ensure the correct information is provided to investors and processes tens of billions of EUR worth in payments on a daily basis.

Whenever an issuer decides – or is forced to - to restructure its debt, organize a general meeting, merge with another company... our Corporate Actions teams will be actively involved to meet the issuer's needs and ensure the interests of the investor are properly served.

Our Tax teams work together with investors, tax and other authorities (e.g. the European Union) to ensure tax legislation is correctly implemented and applied. Thus ensuring governments receive billions of EUR worth of taxes, while ensuring investors can benefit from the tax reductions and exemptions they are entitled to.

While our Reconciliation and Investigation Teams deal with solving some of the most complex issues the market confronts us with.

We are looking for someone who is or has:

- **Analytical skills**
 - Through in depth analyses of business processes – from smaller processes within divisions to large ones, covering other internal parties as well as possibly providers and clients - impacting only part of the d impacting providers and clients and overall market trends with the help of experts from within and outside the division
- **Result oriented**
 - Deliver actionable insights, allowing to refine and improve these processes and the services they support
- **A knack for data**
 - Ideally with a knowledge of SQL and/or Python and some past experience with tools like PowerBI, Hue,...
 - With a good knowledge of statistics
 - Interested in following new trends, getting to know and experiment with new technologies and tools

- **Team player**
 - In close collaboration with colleagues from our Brussels, Krakow and Hong Kong offices
 - Across all divisions, incl. IT, Product Management and Commercial
- **Highly autonomous and pragmatic**
 - Be able to work independently in a rapidly evolving environment
 - Able to work on multiple initiatives in parallel.

New ways of working:

At Euroclear we believe in an ideal balance between office and remote work toward business, team and individual needs, enhancing more flexibility, trust and individual accountability.

This role is based in the Brussels office.

What we offer:

- A great way to start your career and gain expert knowledge at a widely respected Financial Markets Infrastructure
- A fast growing environment – Asset Servicing is one of the key pillars of Euroclear Bank's strategy
- An excellent opportunity to practice and develop your talents in a highly professional international environment.
- Working closely with inspiring, supportive and engaged colleagues from 80+ different countries, interacting with many stakeholders at all levels across the organization.
- A learning and development focused environment with an emphasis on knowledge sharing, training, and reskilling.
- We're agile, we're growing and so will you!"

"Great Place to Work for All

We believe that our people are our strength. The diverse talents that our employees bring to the table, are directly linked to our global success. We are committed to creating an inclusive culture that celebrates diversity, and strive to be a Great Place to Work for All. All qualified applicants will be considered for employment, regardless of their race, religion, color, national origin, gender, sexual orientation, gender identity or expression, age, marital status, pregnancy, neurodiversity, disability, or any other aspect that makes them unique. If you need any specific accommodation due to disability or any other reason, you can let the recruiter know during your application process."
