

**Baltisse** is the investment office of the Balcaen family. We are active in private equity through a diverse portfolio of companies. We support, guide and foster managers that lead companies with healthy margins, are growing or form a platform for consolidation, and are (potentially) large enough. We have an operational mindset and provide valuable input to business strategies focused on growth by capacity expansion, operational efficiency and global market development, or through partnerships and M&A. As a family owned office, we have a longer investment horizon, without constraints on timing of investments and exits.

**\*\* INTERN (ANALYST LEVEL) \*\***

***What will you do?***

You will have a wide range of responsibilities:

- Assessing attractiveness of new investment opportunities
- Conducting market research and industry analysis
- Supporting existing portfolio companies
- Developing business plans & investment models

***Who are we looking for?***

We look for top performing students:

- Final stage of your academic (master) or post-graduate studies
- Exceptional performance, either academic or extra-curricular
- Strong financial knowledge, broad socio-economic interest and affinity with private equity
- Analytical mindset
- Competent in English / Dutch / French
- Previous internship experience

***What do we promise you?***

You will be a true member of our team, with own responsibilities. You will have the opportunity to take initiative, and will be guided where needed. We commit our time to train you & hone your professional skills. Dependent on expertise, we could consider a remuneration.

**Interested?**

If you can free yourself for a minimum of 10 weeks, do share your resume & cover letter to [info@baltisse.com](mailto:info@baltisse.com)

*Looking forward to meeting you!*
