

Summer Internship Programme – Force Over Mass Capital

About Force Over Mass Capital

Force Over Mass is a venture capital firm focused on early stage technology investments. We invest in Seed, Series A and Series B.

We specialise in business-to-business (B2B) innovation and have a common-sense investment philosophy which focuses on revenue-generating business models enabled by technology, rather than simply chasing technology trends.

Force Over Mass has access to an exceptional deal flow through its network and a broad range of accelerators, incubators and universities. We evaluate 1,200+ pre-screened companies per year and our investment managers and analysts apply a robust due diligence and investment process to select the best companies.

Job description

For the internship programme, you will help the investment team with sourcing, analysing and structuring new deals, research market trends and consult the existing portfolio in their quest for growth. Responsibilities include:

- Explore new deals on events from incubators, accelerators, investor fairs, etc.
- Research, identify and source new means to attract deal flow
- Draw trend insights from our internal deal source databases
- Research and report on relevant technological trends
- Conduct due diligence on various aspects of the business: product / service, market analysis, competitive position & defensibility, current traction, financial performance & projections, and team background
- Analyse term sheets and provide advice on how they could be optimally structured
- Consult and support portfolio companies
- Assist in the day-to-day management of the firm

What you get out of the programme

- Working in a fast-paced environment
- Opportunity to grow your network (incubators, accelerators and other VC firms)
- Develop deeper knowledge of the European technology start-up eco-system
- Introduction to many start-ups and industries
- Ability to drive new initiatives and act independently (including sourcing)
- Involvement in end-to-end transaction process (from deal sourcing to deal execution)
- Exposure to portfolio company reporting and monitoring

Duration

The internship programme runs from the end of June 2020 and covers a 2-month period. We are open to longer internships, kindly let us know in your application.

Requirements

We are looking for an enthusiastic candidate with a passion for technology, regardless of your background or studies. A successful candidate will have an analytical approach, the ability to think independently and eye for detail. We would require UK (or EU) work authorization.

Interested?

Please send us an email at internships@fomcap.com by 28 February 2020 with your CV.
