

## Private Equity internship

### About NXMH

NXMH is a family investment holding based in Brussels, Belgium with ca. €3 billion in assets under management.

Our main focus is on investments in European companies in the consumer space. We prioritise majority buy-outs, but we will also consider minority investments. We have a flexible investment horizon, with the ability to invest for the long term. Our typical equity ticket size is between 50 and 200 million EUR. Besides this, we are also an active VC investor in the US.

### Opportunity

We are looking for motivated interns to reinforce our team in Brussels. For a period of at least 3 months, you would become part of the investment team and be involved in evaluation and execution of new investment opportunities as well as the management of our portfolio companies.

### What we are looking for

Our ideal candidate has strong analytical skills, an eye for detail and an ability to think independently. We are looking for someone with a perfect knowledge of English and advanced Microsoft Office skills. It is important that you can demonstrate your interest in and understanding of the private equity industry and the sectors we focus on, preferably through first-hand experience during a previous internship.

### Interested?

Please send your CV and motivation letter, clearly indicating your availability, to [internship@nxmh.com](mailto:internship@nxmh.com).
